AAC Technology Subcommittee
Thursday, February 2, 2012 Minutes

Members Present: Jody Decremer, Deanna Deatrick, Ryan Gray, Jess Ray, Nancy Jakubczyk, Darryl Craig, Mindy Kinney, Christie Proctor, Kat McCreery

Minutes for last meeting were approved

- Jess Discussed FERPA and its application to social media and mobile devices (laptops, iPads, iPhones, etc.). Also covered electronic textbooks that use outside learning management software that have FERPA issues, such as grades being stored externally from ISU.

- LEAP Forward Project
    - The AAC Technology Committee has been recommended to be a participant in the town hall meetings. Guests include representatives from other campuses who have gone through a transition from a homegrown student information system to a pre-packaged one.
    - E-Merge – process mapping of how and why we do our processes on campus, including metrics of success. This will allow us to see if we still need the processes we do and can they be done, or made easier, with new technology.
    - ReggieNet – new learning management system replacing Blackboard. Currently being piloted during the spring 2012 semester.
    - Online Catalogs – No longer printed, will be PDF files. Future catalogs will be customizable. You can select what you want to view/print.

Next meeting is scheduled for March 8, 2012.
