Assessment Sub-Committee

This sub-committee has continued to meet throughout the summer. We are approaching our goal of creating a survey which will measure some parts of the undergraduate advising process at ISU. The assessment will include questions about advising policy and procedure, participation in curriculum planning, scheduling development, collaborative efforts among advisors, etc. Each committee member has worked diligently on one portion of the study, and then shared his or her effort with the other members for refinement. We plan to circulate the survey sometime this fall.
